IMPORTANT INFORMATION

CTSI Update on Weights and Measures Recommendations – Decisions from CTSI's Council

An important update has been sent to all members and students regarding the Extraordinary Council Meeting (ECM), where CTSI's Council considered the recommendations submitted by the Weights and Measures (W&M) Working Group. This message provides an overview of the decisions confirmed by Council.

A copy of this can be found in the [qualifications announcements and updates area](#).

Weights and Measures Bridging Qualification:

CTSI published an announcement on 20 January regarding the L6 Weights and Measures Transition, to view the announcement please click [here](#)

FSA endorsed recognition of Food/Feed unit.

Apprentices who wish to finalise their food/feed unit status, will be required to submit their Food/Feed coursework and undertake a CTSI oral assessment.

More information can be found on the website:

- [Apprenticeship Information](#)

Training and qualifications

CTSI will be offering the following bitesize training courses:

- The Welfare of Animals During Transport (including Poultry)
- Animals (Penalty Notices) Act 2022 – Strategies for Enforcement and Compliance
- Animal Nutrition and the Feeding of Livestock
- Feed Hygiene – Bitesize Primary Animal By Products and Former Food Stuffs in Feed
- Fraudulent trading in Animal Health – how to spot the signs

[Learn more](#)

Investigation Training

Conducting an investigation is a serious and complex process that can have significant repercussions for all parties if not done properly. This training looks at the investigative process and understanding the value of intelligence.

[Learn more](#)

Theory and Practical Training in Weights and Measures Inspection

This FREE UK Weighing Federation-led training day will take place at the weighing manufacturers' premises. Training will be delivered by UKWF Technical Officer and legal metrology regulatory expert, Ian Turner. Priority for booking will be given to QF students.

CTSI Professional Competency in Food

This competency is designed as a stand-alone qualification, providing all the necessary knowledge and skills needed, to carry out Food duties. It is suitable for candidates new to this subject area, although it is recommended that a person will have some prior experience within Trading Standards.

[Learn more](#)

CTSI Professional Competency in IP

Counterfeiting and piracy issues provide a regular challenge to Trading Standards professionals and rights owners alike. This professional competency has been developed by CTSI in conjunction with the Intellectual Property Office to equip professionals working in the field of Intellectual Property.

[Learn more](#)

CTSI Professional Competency in Tobacco, Nicotine and Vaping Regulations

This professional competency qualification has been developed to equip Trading Standards and other Regulatory Compliance professionals responsible for enforcing the **Tobacco, Nicotine and Vaping Regulations**, with the knowledge and skills necessary to successfully undertake this role.

[Learn more](#)

CTSI Professional Competency in Product Safety

This professional qualification has been developed by CTSI's product safety experts to equip professionals working within product safety with the necessary knowledge and skills to undertake this role. It is suitable for all working in local authority market surveillance for products and will provide a basic competency which can be built on through experience and practice.

[Learn more](#)

CTSI Professional Competency in Feed

This CTSI Feed competency will provide you with the knowledge and key understanding of the application of feed law, enforced by regulatory bodies across the UK. You will learn about the legal requirements in relation to feed at all stages, including primary production, manufacture and distribution alongside the framework for the official control regulations governing animal health & public health.

[Learn more](#)

Animal Health and Welfare Professional Qualification

This professional qualification has been developed by CTSI's experts to equip professionals working in animal health and welfare. It is accepted under the new government legislation and suitable for those working in local authority and government departments, as well as organisations in the third and private sectors.
