

Business Certificate of Competence in Product Safety (BCCPS)

Find out more...

Do you work in the consumer product industry? Are you responsible for designing, manufacturing, distributing, or part of the supply chain for consumer products? Then this course is for you!

The BCCPS course will help you learn the skills and competencies needed to deal with the daily challenges of working in product safety. By the end of the course, **product safety professionals** will gain:

Confidence

in their abilities, knowledge and application on product safety

Connections

to support them in their professional career

Capacity

to navigate the world of legislation surrounding products
