

Regulatory Advisor (Non-Food)

Location: Remote - **Salary:** Competitive - **Job term:** Fulltime perm

In this role, you will use your regulatory expertise to guide clients, suppliers, and colleagues, ensuring due diligence and legal compliance through clear, risk-based advice that supports safe, competitive product launches. You will work within Ashbury's Advisory Services team alongside industry and regulatory specialists, reporting to a Team Lead.

Key Responsibilities

- Review formulations, specifications, pack copy, artwork, and branded products for accuracy and compliance.
- Support clients through complaints management, enforcement challenges, and product recall/withdrawal processes.
- Research and horizon-scan for regulatory changes, advising clients on impacts, risks, and required updates.
- Review and contribute to client policies, ensuring alignment with new regulations, guidance, and codes of practice.
- Liaise with government and industry bodies (OPSS, FSA/FSAI, Primary Authorities, ASA, BRC, BSI).
- Deliver training sessions and presentations on regulatory and technical subjects internally and externally.
- Attend client meetings, build strong technical/regulatory relationships, and influence decision-making.
- Produce expert opinion content for client briefings, marketing, and training.
- Maintain and continuously grow subject-matter expertise across relevant regulatory areas.

Key Requirements

- Minimum 3 years' regulatory experience within the non-food sector.
- Strong communication skills, with the ability to simplify complex legal requirements.
- Confident applying regulations to product information and explaining decisions clearly.
- Proven independent working, workload management, and strong time-management skills.
- Demonstrated risk-based decision-making and problem-solving capability.
- High level of accuracy, resilience under pressure, and comfortable working under tight deadlines.
