

REGULATORY COMPLIANCE ADVISOR (TRADING STANDARDS).

Job Location: Welwyn Garden City

Salary: Competitive

Job Introduction

A great opportunity to support the team who set policy and deal with regulatory challenges in areas covered by trading standards and other regulators.

The team works across the business and with external stakeholders to ensure our in store operations and head office teams have robust policies and systems which are well communicated and gain positive engagement at all levels.

This role is an excellent opportunity for someone looking for their second role in a trading standards or regulatory affairs position. Alternatively, applications are welcomed from people with similar experience gained in retail or manufacturing. It would suit an individual, with some practical experience, looking to continue to grow their skills and knowledge.

This role offers experience in trading standards, food safety, retail operations and communications.

Main Responsibilities

- Support the team in developing trading standards policies and procedures.
- Responding to queries from technical teams and other key internal stakeholders on regulatory compliance matters, especially in areas covered by Local Authority regulation.
- Horizon scanning to detect emerging risks and changing legislation relevant to the business.
- Acting as a liaison point for contact from Trading Standards Officers and Environmental Health Officers and investigating matters raised by them.
- Trend spotting on referral data received through Primary Authority and other data sources.
- Assisting in the achievement of “assured advice” in areas of key regulatory risk.

The Ideal Candidate

- DCATS or equivalent qualification relevant to trading standards.
- Qualification to degree level.
- Regulatory or trading standards experience post qualification.

Closing date: 14th May 2018
