

CTSI academy pricing 2016

There are two pricing levels available for ctsi academy modules, one for CTSI members and the other for non-members.

CTSI members enjoy a significant saving on training options as one of their member benefits. However, if you are new to the profession or are about to embark on professional qualification then becoming a CTSI member would be a wise option and make financial sense. Student membership is currently just £39 per annum and will save you a minimum of £100 when you enrol on academy.

As a CTSI member you will also qualify for discounted fees for registration to the Trading Standards Qualification Framework as well as exam entry.

A further discount is available when booking all three CSCATS modules together.

CTSI academy modules	CTSI members	Non CTSI members
Individual CSCATS and DCATS modules	£725	£825
All three CSCATS modules (Early bird rate until 18 March 2016 all rates revert to individual course fees after this date).	£1,565	£1,765

For further information including a demo go to the [ctsi academy page](#).

In order to sit your written examination you will be required to register with the Trading Standards Qualification Framework (TSQF).

Further information on the TSQF including fees can be viewed [here](#)
