

Unit 4: Laboratory Equipment - Metrology (Northern Ireland Candidates)

We are pleased to announce that the additional Unit 4 subject for individuals wishing to complete Stage 2 from Northern Ireland has been approved by the Qualifications and Awards Board (QAB). The new Unit will act as an optional subject requirement from Unit 4 Northern Ireland candidates.

This means that candidates from Northern Ireland will now complete Unit 4: Weights and Measures and additionally, Unit 4: Laboratory Equipment – Metrology.

For details, please see our website: <https://www.tradingstandards.uk/practitioners/training-development/qualifications-resources#stage2info>

All information is found under its own subject heading:

Laboratory Equipment - Metrology (NI candidates)

Please contact the Qualifications team via email if you have any questions regarding the above via qualifications@tsi.org.uk.
