Develop a career in Food Services

East Riding of Yorkshire consists of a large coastal area as well as most of the stunning Yorkshire Wolds presenting a varied area for work. It also benefits from housing and living costs substantially below the national average.

An exciting opportunity has arisen for two Food Standards Officers to join our team. Main areas of responsibility include the enforcement of food standards legislation across a range of food businesses including caterers, retailers and manufacturers. You will also be involved in the enforcement of feed hygiene legislation and investigating complaints and supporting/advising local businesses.

Permanent post (points 14-25): You will either be partially qualified or wishing to develop a career in Food Services and must meet the minimum qualification entry requirements for the Trading Standards Qualification Framework.

Fixed Term post (point 28): You must be fully qualified and competent, have a thorough understanding of relevant food standards and feed hygiene legislation and have current practical enforcement experience.

For an informal discussion and to find out more please contact Daniel Padgham or Michael Chapman, tel (01482) 396239/7.
