

Trading Standards Officer – £29,594 - £31,968

Fair Trading Officer – 2 posts – £23,598 - £25,487

Lewes

The Trading Standards Team uses a wide range of consumer protection legislation to make sure goods and services sold and provided within the county are safe and legal. We cover a diverse range of areas such as product safety, animal health and welfare, illicit markets, doorstep crime, scams, food standards and counterfeit goods.

An exciting opportunity has become available to join the dedicated and proactive Trading Standards Team as either a Trading Standards Officer or a Fair Trading Officer.

As a Trading Standards Officer you will be fully qualified with detailed knowledge in trading standards law, able to independently maintain a workload of potentially complex enquiries of your own as well as support others in the team. This role could suit someone who is keen to expand their experience and develop in a supportive team that carries out the full range of enforcement responsibilities.

We are also looking for two Fair Trading Officers to help the Trading Standards Team. The right candidates will do this by bringing their knowledge and skills from either another consumer protection environment or other enforcement/regulatory agency. We will provide additional and continued

learning to help the successful candidates interpret and enforce the wide range of consumer protection legislation using an intelligence-led approach to inspection, sampling and investigation. As a team we want to tackle unfair and unsafe trading practices throughout the county.

If you would like to discuss either of these roles further, please call the Trading Standards Team Manager, Richard Strawson on 07803 575998, or Paul Davison, Enforcement & Investigations Manager on 07827 980181.
