

**Senior Trading Standards  
Officer**

**Hours: 37 per week (Full Time)**

Sheffield is a great place to live, play and work. Being centrally located in the UK and with great road, rail and air transport links, the city stands between the beautiful outdoor adventure opportunities in the Peak District National Park to the West and the Entertainment, sporting, shopping and industrial sector in the East.

New industries see the Sheffield City Region as the place to be with new factories for Boeing and McLaren taking advantage of the talent from two Universities based in the City, a council positive about new businesses and a future HS2 stopping point. The city centre is the place to access great restaurants, theatres, film and the latest bands at iconic venues that gave us some of the British music greats such as the Human League and the Arctic Monkeys. The annual Tramlines festival sums up what Sheffield is now all about, being just one of many celebrations of the music and the arts throughout the year.

As for the work, we are looking for a fully qualified TSO holding the DTS or equivalent with at least 3 years post qualification experience. We need someone who thinks innovatively and would relish the freedom that the 'problem

**Salary: £38,813 to £42,683**

**Location: Howden House, Sheffield S1 2SH**

**Closing date for applications: 9th September 2019**

solving' approach we have, will give you. You in turn, will be able to demonstrate to us how you have and will successfully take the lead, solving complex enforcement problems. Your experience will have a particular focus on; product safety, food & feed standards, age restricted products, metrology and of course illicit tobacco issues. We would be particularly keen to hear from you, if your enforcement experience includes tackling online social media-based business compliance issues and/or using the Licensing Act as a tactic to solve age restricted and illicit tobacco problems.

In contrast, you will also be able to show us how you could take the lead to ensure our metrology verifications business provides great customer service at the lowest unit cost, getting stuck into verifications work yourself when required.
