---

**Wirral is home to vibrant, energetic and engaged communities, people who take real ownership of their local area and are passionate about making Wirral a better place. The council and its partners have pledged to #BeTheDifference.**

We've got ambitious targets to meet by 2025. To achieve everything we have promised to our residents, we need people who are driven and ready to deliver the very best for our communities - **#BeTheDifference**.

Vacancies have arisen within the Trading Standards Service. The successful candidates would be appointed to the post of a Trading Standards Officer or Assistant Trading Standards Officer dependent upon their qualifications, competencies and enforcement experience.

Wirral is a fantastic place to live, work and visit. We are an employer who supports, who is flexible but who demands the very best. We want people who are driven, unstoppable, and ready to deliver.

The post holders will work within a generic team carrying out inspections, projects, and investigations into complex and serious breaches of trading standards legislation. Identify legal contraventions and select, recommend and execute appropriate enforcement activity based on assessed risk. The post holders will have sole responsibility for undertaking this work and the duties will include presenting solutions to bring a resolution to complex issues.

**Applications returnable by 23 May 2021. Interviews are planned for 27 May 2021.**
